

Arjun Verma

Software Developer - Backend & Full-Stack

arjun.verma.dev@example.com | +91 98000 00000 | Pune, India | [github.com/](#) | [linkedin.com/](#)

SUMMARY

Software developer with 4+ years building production backends and full-stack applications for healthcare (LIMS) and B2B SaaS: REST/GraphQL APIs, MySQL/PostgreSQL data modelling, RabbitMQ event-driven integration, authentication/authorization and React front-ends.

EXPERIENCE

Medlytic Systems - Software Developer, Backend (2023 - Present)

- Own the sample lifecycle domain of a multi-tenant LIMS: intake, worklists, results, report release.
 - Reduced result turnaround 41% by moving report generation to queued workers.
 - Cut reconciliation reporting from 8.4s to 320ms with composite indexes and rollup tables.
 - Lowered analyzer ingestion failures from ~3%/day to <0.2% via idempotency keys and DLQ replay.
- Stack: Laravel, PHP 8.3, MySQL 8, RabbitMQ, Redis, React, Docker, GitHub Actions.

Northbridge SaaS Labs - Full-Stack Developer (2022 - 2023)

- Built subscription state machine, proration and dunning with replay-safe Stripe webhook handling.
 - Consolidated 30+ dashboard requests into 3 via a GraphQL gateway with DataLoader batching.
 - Raised failed-payment recovery from 38% to 61%.
- Stack: Node.js, TypeScript, PostgreSQL, GraphQL, Redis, React, Stripe.

Cobalt Software Services - Junior Developer (2021 - 2022)

- Delivered Laravel/MySQL client modules, admin panels and report exports with PHPUnit coverage.

SKILLS

Languages: PHP, TypeScript, JavaScript, SQL, Python, Bash

Backend: Laravel, Node.js, Express, REST, queues/workers Frontend: React, TanStack, Tailwind CSS

Databases: MySQL, PostgreSQL, Redis, migrations, query tuning APIs: GraphQL, OpenAPI, OAuth2/JWT, HL7

DevOps: Docker, GitHub Actions, Nginx, Grafana, Sentry Testing: PHPUnit, Pest, Vitest, Playwright, k6

EDUCATION & CERTIFICATIONS

B.E. Computer Engineering, Savitribai Phule Pune University, 2021

AWS Certified Developer - Associate (2024) | Oracle MySQL 8.0 Database Developer (2023)
